Resolution for

Annual General Meeting, 2025

It is now time to send any resolution which your Institute wishes to bring forward at the Federation's Annual General Meeting in 2025. It should be sent to:

WI Headquarters: FWINI, 209-211 Upper Lisburn Road, Belfast, BT10 0LL,

by Friday, 15th November 2024

It should be noted that only resolutions that deal with matters affecting the Institutes or communities in the whole of Northern Ireland, or which are of national importance in the United Kingdom, should be submitted. Matters purely of local importance affecting one locality or one county can be dealt with at Area group level under the special procedure laid down for such matters. Institutes should be prepared to make sure of the premises on which resolutions are based before sending them forward. It is important that you ensure that all necessary research has been done before submitting. Some resolutions at previous meetings had not been subject to thorough investigation prior to discussion and were later found to be without proper foundation. Not only does this waste time at the AGM, but it also damages the reputation of the Institutes and detracts from their powers to press for important change.

When sending in resolutions, please ensure that **all relevant information** is enclosed to assist the Executive Committee when discussing submitted resolutions.

All resolutions received from the Institutes are considered by the Executive Committee and added to the agenda at their discretion. Your delegate to the AGM must be prepared, if necessary, to move the adoption of any such resolutions when it comes up for discussion.

The Institute proposing the resolution is responsible for providing a seconder who will be from a different Institute and preferably from a different Area.
